### SCHEDULE

---

InterMedia requires the technical services of one or more subcontractors to perform nationally representative household surveys to be implemented in several African countries. InterMedia invites research firms with local expertise, staff, and experience to propose to implement computer-assisted personal interviewing (CAPI)-based surveys in any one or more of four (4) African countries: Kenya, Uganda, Tanzania, and Nigeria. Offerors are invited to submit a best-price proposal for the work to be accomplished in partnership with InterMedia. Offerors may submit proposals to implement surveys in one or multiple countries. To qualify for the award of a subcontract, an Offeror must have working offices and staff in each country where they propose to implement a survey prior to the submission of a proposal. InterMedia may award one or more subcontracts to one or more winning Offerors to implement surveys in one or more countries.

- I. **Type of Subcontract** – Any award resulting from this RFP will be a Fixed Price Subcontract valid for one Wave of research only. All deliverables described in the Subcontract must be submitted no later than four months after the commencement of survey activities.
- II. **Submission of Questions** – All questions regarding the RFP must be submitted no later than 12 April 2017 (5:00 pm U.S. Eastern Standard Time) via e-mail to: [FIIbids@intermedia.org](mailto:FIIbids@intermedia.org). No questions will be answered over the phone or in person; all questions must be submitted via email to the address provided. Responses to questions raised by any single Offeror will be shared and made publicly available to all prospective Offerors on InterMedia’s website <http://www.intermedia.org/intermedia-wave-v-final-rfp-rfp-qa>. Answers to all questions submitted will be posted on the same webpage by 18 April 2017.
- III. **Submission of Proposals** – Proposals must be in English and delivered electronically to [FIIbids@intermedia.org](mailto:FIIbids@intermedia.org) no later than 26 April 2017 (5:00 pm Eastern Standard Time). Only electronic submissions of proposals will be accepted under this RFP. Proposals must be received

by the closing date and time indicated above. Offerors are responsible for ensuring timely delivery of proposals. Offerors must submit Technical and Cost Proposals as **separate attachments to the same e-mail**. The Technical Proposal will be reviewed in advance of any review of the Cost Proposal in order to ensure that all submissions are technically sound and acceptable. A failure to respond appropriately to the technical specifications of this RFP will disqualify Offerors from review of their Cost Proposals or for consideration of award.

- IV. Contents of Proposals** –Please refer to Section B for instructions regarding the preparation of the Technical Proposal and Section C for instructions regarding the preparation of the Cost Proposal.
  
- V. Offeror’s Agreement with Terms and Conditions** – The complete submission of all requested items will constitute the offer. Failure or refusal to assent to any of the terms and conditions of this solicitation, imposition of additional conditions or any material omission may constitute a deficiency, which may make the proposal unacceptable, thereby eliminating the proposal from further consideration. InterMedia reserves the right to award a subcontract without discussion and/or negotiation; however, InterMedia also reserves the right to conduct discussions and/or negotiations, which, among other things, may require an Offeror to revise its proposal (Technical and/or Cost). Issuance of this RFP in no way obligates InterMedia to award a subcontract, nor does it commit InterMedia to pay any costs incurred by the Offeror in preparing and submitting the proposal.
  
- VI. Compliance with RFP Instructions** – The Offeror is requested to submit a proposal that is directly responsive to the terms, conditions, specifications, and provisions of this RFP. Offerors are required to fully review all instructions and specifications contained in this RFP. Failure to do so will be at the Offeror’s risk.

## **SECTION A: STATEMENT OF WORK**

---

The purpose of this Statement of Work (SOW) is to provide guidance to the Offeror (also referred to as the Subcontractor) on developing a Technical Proposal that meets the requirements of this RFP. Relevant sections of the awardee's approved final Technical Proposal in response to this RFP will be incorporated into the Subcontract. Offerors should note that InterMedia is bound by a Master Service Agreement (MSA) with the Funder, whose terms and conditions flow down to InterMedia subcontractors in each country with equal force and effect. The final Subcontract is NOT subject to negotiation or adjustment except in minor cases. The Annexes in this document cannot and will not be edited or negotiated and must be accepted as stated (see Sections E and F for Subcontract Terms and Conditions).

### **BACKGROUND**

The Financial Inclusion Insights (FII) Program provides demand-side insights into the drivers and constraints to financial inclusion through rigorous quantitative and qualitative research and identifies pathways to ensuring that those most in need have the financial tools necessary to improve their economic capability. The program was conceived in 2013 in partnership with The Bill & Melinda Gates Foundation and has worked to build meaningful knowledge about the financial landscape in eight countries across Africa and Asia through bespoke reporting and analysis and through the web-based open data platform, Finclusion.org.

The program is currently entering its fifth wave of nationally representative household surveys in Africa. InterMedia seeks a research firm with local offices, staff, expertise, and past performance to partner with InterMedia to implement the computer-assisted personal interviewing (CAPI)-based survey in four (4) African countries: Kenya, Uganda, Tanzania, and Nigeria for the upcoming Wave V fieldwork in 2017 only.

The survey will provide national level measurements of key indicators and provide data to inform the development and adoption of new products and services. The details of the survey and the proposed survey implementation methodology are in the following sections. Offerors should use the Technical Proposal to clearly outline how they would address each of the requirements, giving examples of past performance where possible. Qualified Offerors are invited to bid on implementation in one or multiple countries. Proposals for surveys of more than one country must provide cost breakdowns for each country separately. While InterMedia is willing to issue individual Subcontracts, we are interested to see cost-saving initiatives that are suggested by Offerors who propose to implement surveys in multiple countries.

### **METHODOLOGY**

The Subcontractor will be responsible for implementing a nationally representative survey in one or multiple African countries:

- Kenya N=3,000
- Uganda N=3,000
- Tanzania N=3,000
- Nigeria N=6,000

The surveys will be nationally representative of individuals aged 15 and older, covering both urban and rural areas across all population-strata, except military bases and other restricted areas. The survey will be conducted using CAPI. The questionnaire will require between 40 and 90 minutes to administer. The Subcontractor will be responsible for the management and direct implementation of the survey ramp up, fieldwork/data collection, and dataset finalization. Specific tasks include, but are not limited to:

#### **a. Country-Specific Questionnaire Inputs**

InterMedia will provide the Subcontractor with a questionnaire that requires limited country-specific inputs on the local financial products and service providers, including banks, mobile money providers and non-bank financial institutions including, but not limited to, micro-finance institutions and savings groups. The Subcontractor will assist with customizing demographic questions to ensure their contextual relevance, including country specific education systems and main sources of income and employment. The Subcontractor also will be responsible for reviewing the questionnaire in terms of the cultural appropriateness of sensitive questions. Offerors must demonstrate knowledge of the financial services markets in each country they are bidding on in their technical proposals. Offerors should also be aware that there are some “indicator” questions included in the survey that cannot be changed, as they will be used to benchmark off past waves of research.

#### **b. Translation of the Questionnaire**

The Subcontractor will be responsible for translating the customized questionnaire into all required local languages. The language requirement for each country is as follows:

- Kenya - Swahili
- Uganda - Luo, Luganda, Runyoro/Rutooro, Runyankole/rukiga, Lugbara, Karamajong, Ateso or other relevant local languages
- Tanzania - Swahili
- Nigeria - Yoruba, Hausa, Igbo, and Pidgin or other relevant local languages

After completing the translation, the subcontractor will back-translate the questionnaire to English and provide a detailed report on the results. Offerors should describe in detail their process, capability, and experience with providing thorough and accurate translations for the languages required in the countries they are bidding in the Technical Proposal.

#### **c. Pretest of the Questionnaire**

InterMedia will script the questionnaire for CAPI administration by the Subcontractor using the Subcontractor’s devices. All scripting will be done by InterMedia using the Android application, SurveyToGo. The Subcontractor will be responsible using its devices to pre-testing the scripted questionnaire in English and all its translated versions. The pretest will include approximately 100 interviews in all major regions of the country where each language is spoken locally. The Subcontractor must deliver a pretest report with an item-by-item accounting of the results of the pre-test of the translated scripts to InterMedia. InterMedia will revise the questionnaire based on the Subcontractor’s inputs and modify the script as necessary. Competitive Technical Proposals will describe the Subcontractor’s approach to pretesting and how this approach will enhance the quality of the survey data.

#### **d. Pilot Test of the Questionnaire**

During the field training the Subcontractor will be responsible for a pilot test of the questionnaire in all its translations. The pilot is the field practice portion of the training. The pilot test must have a minimum of 50 interviews and should be conducted in both rural and urban areas in each country. More than two EAs must be used for the pilot to avoid respondent clustering. After the completion of the pilot test, a centralized debriefing session will be held, in which any difficulties the interviewers and respondents had with the administration of the questionnaire will be discussed. At this time the InterMedia trainers will correct mistakes teams made during the field practice and to answer questions on field procedures. If the pretest is properly conducted, minimal changes will result from the training and data collection can then be launched immediately at end of training. Within one day after the end of the debriefing, the Subcontractor must provide a written report on the outcome of pilot test to InterMedia along with

recommendation on the changes to be made to the questionnaire. A competitive technical proposal will describe the Subcontractor's approach to pilot testing and how this approach will contribute to training interviewers and enhance the quality of the survey data.

#### **e. Sampling**

In collaboration with the national statistical office in each country, InterMedia will design and select a nationally representative sample. InterMedia will work directly with the national statistical office to provide the sample to the subcontractor. Any cost associated with the delivery of the sample by the statistical office will be borne solely by InterMedia.

The sample will be a stratified multistage sample with area units, such as census enumeration areas, selected as primary sampling units (PSUs). In each PSU, 10 to 15 households will be selected in the second stage of sampling. Household selection will be done using the random walk methodology or from household lists created in a recently conducted listing operation. In the final stage of selection, one adult household member aged 15 and over will be selected in each sampled household using the Kish grid method. The survey questionnaire will be administered to the selected respondent.

Where the random walk methodology is used for household selection, Intermedia will provide guidance on the use of replacement households. If household selection is based on a household listing, the sample design will take nonresponse into account and as a result, no replacement of household or household member will be allowed.

After InterMedia has provided the sample, the Subcontractor will work with the national statistical office as necessary to: (1) identify the selected PSUs and their boundaries on the ground, and (2) locate sampled households where a household listing is used for household selection. A competitive technical proposal will demonstrate detailed knowledge of nationally representative sampling in each country where survey implementation is proposed, including a description of any important challenges to achieving a representative sample, and how such challenges would be overcome.

#### **f. Fieldwork Plan**

The Subcontractor will create a detailed plan for realizing the nationally representative sampling design provided by InterMedia with respect to all logistical and staffing arrangements, including locating and evaluating the accessibility of all PSUs. If a PSU is identified as inaccessible during fieldwork planning or during fieldwork, this information must be communicated immediately to the InterMedia point of contact, and InterMedia will select a replacement PSU as soon as possible. In no case will the Subcontractor select a replacement independently.

The fieldwork plan will provide details on when interviews will take place in each PSU and which team of data collectors will complete interviews. This information will be used by InterMedia to organize monitoring activities using an independent quality control team that will be separately managed by InterMedia. All changes to the fieldwork plan, for example rescheduling fieldwork in a PSU to a different day, must be communicated immediately to the InterMedia point of contact. A competitive technical proposal will describe how the fieldwork plan will be created from the sample design, identify challenges for fieldwork planning in the proposed countries, and describe how such challenges would be overcome.

The fieldwork plan will be shared with the national statistical office to allow them to plan their assistance in identifying on the ground selected PSUs, and where necessary, selected households. Any costs associated with fieldwork implemented by the national statistical office will be borne solely by InterMedia.

#### **g. Recruitment and Training**

The Subcontractor will be responsible for the timely recruitment of qualified enumeration teams, including

interviewers and field supervisors. Supervisors should be chosen from the best trainees that show clear understanding of the survey objectives, questionnaires and field procedures. All field staff must be able to conduct CAPI interviewing and have the necessary skills to use the required technology. The Subcontractor must describe the composition of their proposed field team, including total numbers of enumerators and supervisors, regional allocation, as well as their recruitment process. A competitive technical proposal will provide clear explanation of how the Subcontractor will identify and evaluate the suitability of potential field staff, including local language fluency.

The Subcontractor also will be responsible for organizing, hosting and handling all local logistical preparations for the training of field staff. The training will last seven (7) full days, including two (2) full days of field practice for field staff. InterMedia will provide the training program and the training manual and the Subcontractor will be responsible for translating the training materials into the appropriate local language(s). The Subcontractor will provide appropriate translation facilities for the InterMedia staff to provide training in local languages other than English and Swahili. The training should be carried out at a central location. InterMedia will send a representative to facilitate the training course. InterMedia reserves the right to reject the training venue in the case that InterMedia determines that the venue proposed by the Subcontractor is not suitable for delivering the training course.

Offerors should indicate how they would approach the training (via either one centralized training, or a centralized train-the-trainer program and regional trainings). Where the Offeror proposes using a train-the-trainer methodology, it should provide details on past training facilitation in the Technical Proposal. A competitive proposal will describe how the training provided by the Subcontractor will enhance the quality of the survey data.

#### **h. Data Collection**

Data will be collected using suitable handheld devices provided by the Subcontractor using the SurveyToGo application to administer the scripted questionnaire. The Subcontractor is responsible for providing all devices and must ensure that devices are geo-enabled and compatible with SurveyToGo. Technical proposals must specify the number of devices that the Subcontractor will dedicate to survey implementation in each proposed country. Proposals must also identify the specifications of the devices. Proposals must describe how the Subcontractor will ensure that all interviews are administered using devices that meet requirements in terms of specifications and battery life, as well as backup logistical arrangements in the field, including reserve power banks. GPS coordinates must be collected for all households where interviews take place. The Subcontractor must state that they understand and are able to fulfill this requirement in the Technical Proposal. InterMedia will maintain constant visibility over data collected in the field via SurveyToGo. Competitive technical proposals will describe the Subcontractor's experience with implementing CAPI surveys in each proposed country, challenges that are likely to be encountered, and how the Subcontractor would overcome such challenges such that data quality is assured.

#### **i. Dataset Finalization**

The Subcontractor will be responsible for the production and delivery of separate cleaned final data sets in SPSS for each country survey. The production of the dataset(s) will include three or more rounds of data checking and cleaning in close consultation with InterMedia data analysts to arrive at the final dataset(s) that passes all quality checks and is suitable for public dissemination. These checks involve item-by-item identification of errors and inconsistencies in the data identified in reports sent to the Subcontractor. The checks include, but are not limited to:

- Reviewing the data file to ensure it is structurally sound, and consistent with the codebook, such that all variables included in the codebook are present in the dataset, of the right type, and contain matching values, including administrative variables and metadata

- Identifying missing data that must be captured through follow-up interviewing
- Conduct checks for anomalies in the data, including:
  - Checking of the eligibility for interview of the respondent according to instructions in the questionnaire
  - Checking that all values in a variable are within the variable's defined range
  - Outlier interview durations and daily number of interviews per interviewer
  - Overlapping interview times conducted by the same interviewer
  - Checking the metadata to verify the implementation of the sampling plan such that the location where data was collected matches the sampling plan
  - GPS coordinates of surveyed areas are within the country where the survey was conducted
  - Duplicate GPS coordinates for households
  - Interviews that are identical or respondents who have been interviewed twice (duplicate cases)
  - Cases that have the same answers across a series of questions regardless of the interviewer (pattern response)
  - Interviewers that had the same responses for particular questions across all of his/her interviews (substantive response bias)

The Subcontractor will be responsible for working with the InterMedia team on addressing any issues raised in the data checking process and to complete the timely revision of datasets as needed. The Subcontractor will clean the data following the guidance provided in each data check report. Data checking will continue until the Subcontractor has satisfactorily resolved all errors and inconsistencies identified by InterMedia. Competitive Technical Proposals will describe the Subcontractor's data processing and cleaning capability and how the Subcontractor will undertake data cleaning such that data quality is assured.

#### **j. Technical Reports**

The Subcontractor will be required to provide InterMedia with a full technical report within two weeks of the completion of the final dataset. The technical report will be based on the template attached as **Addendum F**.

### **2. QUALITY ASSURANCE AND CONTROL**

The Subcontractor shall develop and maintain an effective quality assurance (QA) and quality control (QC) program to ensure that services are performed in accordance with this SOW.

Offerors shall submit a QA/QC plan as part of the Technical Proposal. The QA/QC plan must provide specific details on the quality assurance measures that will be taken during data collection, such as supervisor accompaniment, field reporting structures, and feedback and mechanisms that will allow for timely corrections of any problems identified in the field.

### **3. STAFFING PLAN AND OPERATIONAL CONSIDERATIONS**

The Subcontractor will be responsible for arranging and paying for all logistics related to in-country training, data collection, and data cleaning including, but not limited to, lodging, office space, meeting spaces, internet access, equipment, vehicle rentals, security, and drivers and all payments related to their own individual staff and supervisors. InterMedia will not be involved in any disputes between field personnel and the Offeror's management team. Offerors must ensure that the necessary payments are provided to field by agreed upon field dates. All expenses for InterMedia staff will be borne by InterMedia.

The Cost Proposal has no page limit and consists of two separate attachments: I) a detailed cost breakdown in Excel with unlocked formulas and II) a budget narrative/justification and supplementary cost information. All files should be clearly marked and submitted as follows:

- I) Financial Inclusion Insights (FII) Survey Wave V\_ Offeror's Name\_Detailed Budget (.xls)**
- II) Financial Inclusion Insights (FII) Survey Wave V\_ Offeror's Name\_Budget Narrative and Cost Information (.pdf)**

A complete Cost Proposal will consist of the following:

- I. Detailed Cost Breakdown** (Microsoft Excel file with unlocked formulas)
- II. Budget Narrative/Justification and Cost Information** (assembled in **one** document)
  - a. Budget Narrative**
  - b. Cost Information**
    - Priced Deliverable and Payment Schedule
    - NGO Registration or Business Registration Certificate for each proposed country
    - Audited Financial Statements
    - Financial Capability Questionnaire

Additional details for the preparation of Cost Proposals are provided below:

- I. Detailed Cost Breakdown** – The detailed cost breakdown must be submitted in **Excel with unlocked formulas**. Excel spreadsheets for the cost proposals could be presented in the format each Offeror finds most suitable provided that the spreadsheets are presented in a legible format. A breakdown of summary prices in U.S. Dollars must be included that outlines labor costs per deliverable (by person and daily rate), costs of materials, training, production costs, overhead and other costs (e.g., ground/air transportation). This is required in order to determine cost reasonableness. Please note that the Offeror is responsible for all payments related to field implementation. InterMedia personnel do not carry or pay out revenue for legal reasons. Offeror is responsible for any/all costs in the execution of this project. Modifications are only considered when the scope of work changes or some catastrophic event that might otherwise hinder completion occurs. At that time, InterMedia will also need to work with the Funder to consider cost increases. Any necessary modifications will be subject to approval of the Funder.
- II. Budget Narrative and Cost Information** (assembled in **one** document)
  - a. Budget Narrative/Justification** – Offerors must provide sufficient detail and justification for costs deemed necessary to accomplish the proposed survey implementation in one or more countries. Please provide detail and justification for significant items, including salaries, estimated travel expenses, and items that comprise materials and supplies.
  - b. Cost Information** – The following supplementary cost information is to be submitted with the budget narrative in the same document in the following order:
    - **Priced Deliverable and Payment Schedule** – Offerors must enter their U.S. prices using the template provided in **Addendum D** (page 32 of this RFP) for all specified deliverables. Price shall include all labor, other direct costs (materials, etc.), security, and overhead. The

pricing schedule as outlined below is non-negotiable as it is tied to the Master Services Agreement issued to InterMedia by the Funder.

Offerors must provide a statement in their Cost Proposals that they accept and agree to the following pricing schedule:

- i. 20% on contract award
  - ii. 40% pre-training/implementation – this payment will be made once the training dates and plan are confirmed with the InterMedia Research Manager. This includes any authorization documentation required to conduct fieldwork in country (e.g., local government/ministry approvals, etc.)
